

Map an HOPD (Hospital Outpatient Department) in NHSN

There are multiple HOPD CDC location codes in the Patient Safety Component manual where outpatient procedures are performed. Select the code that is most appropriate for your facility.

Notice: Free standing outpatient departments that are not physically attached to your main facility should still be mapped to the main NHSN OrgID (even if it is an entire building). *These departments do not have to be enrolled into NHSN separately because they are at a different geographical location.*

Licensed Ambulatory Surgery Centers (ASC's) that perform outpatient procedures should be enrolled into the Outpatient Procedure Component (OPC) to report their procedure data. Only facilities with a CMS Certification Number (CCN) with a "C" as the third digit are designated to report to this component. More information about the OPC can be found here, <https://www.cdc.gov/nhsn/ambulatory-surgery/index.html>

Pediatric Outpatient Operating Room/Suite (Attached)	1248-4	OUT:ACUTE:OR:HOPD_A_PED	A room or suite equipped for the performance of pediatric surgical operations that is physically within the walls of the affiliated ACH. It is considered a hospital outpatient department used for outpatient pediatric surgical procedures. Requirements for air changes, temperature, humidity, and surfaces must be met.
Pediatric Outpatient Operating Room/Suite (Detached)	1249-2	OUT:ACUTE:OR:HOPD_D_PED	A room or suite equipped for the performance of pediatric surgical operations that is not physically attached to the affiliated ACH (could be on the same campus or miles away). It is considered a hospital outpatient department used for outpatient pediatric surgical procedures. Requirements for air changes, temperature, humidity, and surfaces must be met.
